## Steps to Returning Electrical Service to A Structure

- Owner/Electrician to call Clermont County Permit Central (513-732-7213) and notify them of your need to have electrical service returned. Please provide your name, address, and contact number.
- Clermont County Permit Central will create a permit and begin the process towards returning your electrical service. (Their permit fees have been waived until August 8<sup>th</sup>, 2022, tornado related items only).
- Electrician to have structure ready and repaired, mast, panel, etc. for County Inspectors' review.
- Owner/Electrician to call Building Department for inspection and "Green Tag" placement.
- Building Department to do inspection, and if approved, will place a "Green Tag" on structure and will send a release to Duke Energy. **Customer needs to call Duke Energy Service Installation Line directly (877-700-3853) and request a "RECONNECTION FROM THE TORNADO".**
- Duke Energy will energize the structure.

The sooner you submit the information to Clermont County Permit Central (513-732-7213), the sooner the process begins towards getting your electrical service returned.

Best Regards,

Harry L. Holbert, Jr.
